LOUISVILLE AND NASHVILLE AND GREAT SOUTHERN RAILROAD.

GOING SOUTH.
Train No. 2 arrives and leaves at 10:25 P. M.
Train No. 4 arrives and leaves at 2:30 P. M.
GOING NORTH.
Train No. 1 arrives and leaves at 4:50 P. M.
Train No. 3 arrives and leaves at 3:45 A. M.
No. 1 and 2 are mail trains.

VERY little traveling on our railroad at present.

THE Courier reports the health of Union City better than ever before.

CHRISTIAN CHURCH, Ky., boasts of having seven literary societies.

The mercury indicated 92° in Memphis at half-past 8 o'clock on Saturday evening.

GOVERNOR BROWN, of Tennessee, is at his home in Pulaski suffering severely with neuralgia of the eyes.

THE blast furnace at the Sevenshoe coal mines, in Tennessee, will be completed in a few days.

THE cholera is reported gone at Shelbyville—12 whites and 35 blacks died during its prevalence.

THE laying of the cable of 1873 was successfully completed, July 4, shortly after midnight.

WE are indebted to our friend, Bob McKennedy, for files of late New Orleans papers.

"ANON" gives us an interesting description of Rising Sun bluff, on Cumberland river.

THE Dover Record says a large amount of the oats in Stewart county had to be moved on account of being blown down.

WE learn from the Mayfield (Ky.) Democrat that 6,748,990 pounds of tobacco were raised in Graves county last year.

THE Hook and Ladder building is progressing rapidly, under the supervision of that go-ahead workman, Ran. Gillbert, who is the sub-contractor of the job.

WE advertise a pigeon shooting match at the Fair Ground, on the 20th of August, open to all competitors and free to all visitors.

THE total importation of coffee from Rio to the United States, is put down at 1,278,630 bags, a gain of 17,008 on the year preceding.

STOCK in the Paducah Car-work Company is being taken in encouraging sums. It is thought the project will succeed.

THE lady who let the CHRONICLE fall, during the confusion and bustle, while pronouncing last Thursday, will be supplied with extra copies at 5 cents each.

LOUR, made of new wheat, was sent from Montgomery Mills, in this county, by J. G. Johnson, last Friday. Mr. J. makes an excellent article of flour.

UPON the question of subscribing \$100,000 in bonds for building a system of water works in Henderson, Ky., the vote stood 269 for, and 129 against the subscription.

NOW is the time to have your picture taken. You are liable to die at any time, and as business is dull, McCortney has more time to take and finish the picture.

MEAT and bread, and bread and meat, shall poor devils be allowed to eat.

When we do get a showing at vegetables we intend to make up for lost time.

THE survey for the Nashville & Chicago railroad, from the Kentucky line to the north bank of the Cumberland river, near Nashville, has been completed.

EVERY passenger train on the Nashville & Chattanooga road has been supplied with air brakes. All the trains on the Nashville & Northwestern road will be similarly equipped within the next few days.

WE learn that the physicians of Erie left the place, when the cholera was raging, and that Dr. T. D. Johnson, of this city, went down last week, and gave all the time he could spare to the alleviation of those who were suffering from that terrible disease.

In another column is a letter, from Mr. G. T. Lewis, who republishes, but we find nothing that is not practical, sensible and looking to the development of the material resources of Tennessee and the South. The letter is copied from the Chattanooga Times.

THE sale of land for railroad tax, will continue from day to day until it is sold. Mr. J. R. Martin will be at the court house, in this city, on Monday, 14th inst., and give all a chance to pay what he owes to do so. In his absence, Mr. Alex. Davidson will act in his place.

WE had quite a storm here last Monday night, accompanied with terrific lightning, sharp, loud peals of thunder and a heavy rain. We noticed many trees were blown down around the city, but heard of no serious damage being done.

The County Court on Monday last, elected, as school Superintendent, Mr. N. L. Whitefield. We do not deem the salary sufficient for the labor and responsibility incident to the position, but have no doubt the court will reconsider the subject, should it appear, under trial, that the work is being prosecuted with judgment and efficiency. The fact that Mr. Whitefield has accepted the situation, in good faith, testifies as to his intention to do his whole duty, and being an experienced teacher, well educated and a conscientious gentleman, we have faith that he knows what ought to be done for the establishment of schools on a sound basis and that he will spare neither thought nor labor to make them a success. We are satisfied, too, that the court is not wanting in zeal for the vital cause of education and will appreciate and liberally reward the successful efforts of the agent they have chosen to put the system in good working order.

We see it stated that, in Thomson, Ga., a society of boys has been formed, the self-imposed obligations of which is, that they will not, disobey their parents, keep vicious company, nor neglect their school duties. Of all the schemes for reform, and building up, on the South, on a basis of integrity and intelligence not one is more cheering and hopeful than this, if indeed there be such an organization as is reported. Our daily observations have taught us the necessity for some reformatory movement here and, indeed in every town throughout the country. And if parents, adopting the idea, can be induced to promote such juvenile associations it will prove a pleasing occupation for themselves and a most beneficial arrangement for the children of both sexes. In the existing state of society, as all must have observed, the moral training of children, at home, however judicious it may be, in exceptional cases, is no security against the demoralizing influences of association, outside of parental supervision. And until home training is both universal and judicious, no one's child is secured against contamination by outside influences. Something must be done for the proper moral training of the majority, or conscientious parents will be forced to exert a restraining surveillance over their children painful to themselves, and, in the estimation of the little ones, bordering upon tyrannical tyranny, and hence discontent with home and longing for the freedom of the streets.

A MASTERLY PIECE OF ART.—We had the pleasure, a few evenings since, of seeing a portrait of our former townsman, the late David M. Dorris, from the case of Mr. Wm. H. Baker, formerly of New Orleans, now of Brooklyn, N. Y. We understand that the artist had no acquaintance with the deceased, and therefore had nothing to guide his skillful brush save a small photograph and lock of hair. The natural and life-like features of this easel-piece speak in the highest terms of Mr. Baker's artistic ability. Any of our citizens who may wish the features of departed, loved ones delineated upon canvas would do well to communicate with him at No. 167, 17th street, Brooklyn, N. Y.

DISTRICT CONFERENCE.—The Centreville District Conference will convene on the 25th inst., at McKendree church, on Yellow Creek, circuit. The introductory sermon will be preached on the 24th, at 7 P. M., by Rev. W. W. Vicher. The presiding clerk, Rev. J. G. Bolton, urgently invites all the members to be present, and states that Drs. Summers, McFerrin and West will attend.

THE NEW YORK SUN claims to "shine for all." It also has the stupendous magnanimity to say that it "will not exchange for any paper, but subscribe for those it needs. It never did let its drummed light shine into our office as an exchange—for we never asked the favor—but its independent shining reminds us of rotten mackerel by moonlight—Shine and stink, and stink and shine."

SHOOTING AFFAIR.—We learn from the Union City Courier, of the 4th inst., that Mr. W. L. Parrott, city marshal, was wounded in the abdomen while arresting a man by name of Ferrell, charged with stealing. The marshal of Paducah sent a telegram to Mr. Parrott to arrest Ferrell for stealing a watch and some money in Paducah. While reading the warrant Ferrell shot Marshal Parrott. Ferrell was sent to the Dresden jail, and Mr. Parrott is likely to recover from his wound.

MISS ANNIE MADISON DECLINES.—We are authorized to announce that Miss Annie Madison declines being longer a candidate for the premium watch. She returns her thanks to those friends who have so generously supported her, and requests that they will give their votes and influence to her cousin, Miss Annie Bowling, of Clarksville.

THE Nashville Banner announces a Convention of Tennessee farmers, to convene in Nashville, on the 15th of September. And since there is a manifest disposition everywhere, with farmers to organize against the tyranny of monopolies and assert and maintain their rights as the majority class and life blood of commerce and the arts, we hope the farmers of Montgomery county will take steps to be represented at that Convention and contribute their quota to the happy results to the whole country.

FROM THE NEW ORLEANS Picayune of the 6th inst., we see a mortuary report given by the Board of Health on June 30. The total number of deaths from March 30, to June 29, was 2092. Of this number only 131 were from sporadic cholera. This speaks well for New Orleans, considering its population and the sickly season.

MR. FRANK PHILLIPS, Capt. of Police, is doing good work for the city. He went to business in earnest, a short time since, and rid the city of street-walkers, for which he deserves thanks, although he did nothing but his duty. True, a man does not deserve credit for a discharge of duty, but it is gratifying to know we have officials who have the nerve to do their duty, regardless of consequences.

NO corn meal in town yesterday! Let millers take notice and send in a supply.

MR. JEFF DAVIS visited the city of New York on the 3d inst., and took quarters at the New York Hotel. He was interviewed by a Herald reporter, but did not furnish any political capital, as he has retired from the field of politics at present. He received and parted with the reporter in courteous manner.

OUR old friend, J. E. Garner, Esq., of Springfield, was in the city several days this week.

JOHN BRADLEY, an experienced brick maker, advertises to sell them at \$6 per thousand.

FINE Gold Pens for sale by OWEN & MOORE.

White Lead, Oil, Paints and Painter's Material for sale low at Byers'.

THE CHOLERA. We understand that it is still circulating through the country that we are having fifteen or twenty deaths per day from cholera. This is false. We take extra pains to find out all we can in reference to the sickness and deaths in our city, and endeavor to give the facts in the case. Our country readers may rely upon the statements we give them. It is true there may be some deaths that we fail to report but we give an accurate report of all that we hear of. One of our physicians reports the death of a negro woman this week near the gas works, who was the grandmother of the woman who died on the 2nd ult. This last case is pronounced unmistakable cholera. The negroes used wet water.

Mr. John Kelly, an Irish gentleman who kept a saloon opposite the market-house, died at his residence east of the M. E. Church, on the 9th inst. This case too, is pronounced cholera, but as in all other cases that have occurred here, was superinduced by imprudence.

Another death, that of George Hall, colored, occurred last Wednesday evening. This case is also pronounced cholera. We are informed that he had a large amount of snap beads that day before his death.

No case of cholera reported at Nashville for several days up to time of putting our paper to press. It is believed that the disease has run its course in that city. A meeting of physicians, since its abatement, pronounced the disease Asiatic cholera.

In Memphis the disease has nearly disappeared—4 deaths on the 9th. On the 9th, only one death from cholera reported at Chattanooga.

One death in Franklin, Ky., on the 9th, which makes 42 deaths there since the first appearance of the disease.

We have no advices from Gallatin, and suppose that the disease there has disappeared.

We hear of no new cases at Erin or Palmyra.

When the cholera first appeared in Nashville, our citizens commenced the work of purifying premises and attention to diet, and hence our remarkable exemption from the malady. But emboldened by fancied security, the reckless laid aside their caution and hence the three or four deaths this week—all traceable directly to an imprudence which would have been dangerous in the healthiest summer season. The caution which has averted cholera as an epidemic should be observed so long as wet and heat favor its presence in our midst.

We have an idea, whether correct or not, that so much rain and so little sun give to vegetables a sappy growth, diminish their nutrition and imparting to them properties which, of themselves, may be exciting causes of all diseases akin to cholera.

The following note from our townsman, Hon. G. A. Henry, shows that we have grass lands that will produce equal to any land in the country, and we cannot see why it is that we do not raise all the hay we consume, instead of importing it. Let our farming community think over this matter and determine to bring about a speedy change. We ought, by all means, to raise enough for home consumption, if indeed, we do not export it. But here we note the Major says:

EDITOR CHRONICLE.—I see the Elizabethan Ky. News is boasting that Mr. Jas. Watson has exhibited a head of Timothy grass, that measures over 10 inches. I can beat that. I here present you a head of Timothy, grown on my Red River bottom land this year, that is 11 1/2 inches long.

G. A. HENRY.

Let it be borne in mind that on the 1st Thursday in August, each school District will be required to elect three school commissioners. And since the success of the schools, in each, must depend, in a great measure, upon the energy and wisdom of said commissioners, the voters cannot be too careful in their selection. There is too much at stake in this movement to justify the slightest indifference to any matter connected with the adjustment of the machinery essential to the proper working of common school system, upon which depends the progress of the people to wards that moral and intellectual culture which is the surest basis of general prosperity and happiness.

THE Radical aspirants to the Presidency are beginning to evince their unbusiness, lest Grant may be in their way, and nattering of discontent are growing more and more emphatic and distinct. One Radical Senator stated recently, that he supposed the increase of Grant's salary, would remove his desire for a third term. We may infer from this, that the increase was intended to buy him off, but they ought to have known that Grant is no more to be bought with money than with whiskey.

WE, the junior, paid a visit to Antioch church, on the south side, last Sunday and was glad to find a fine Sabbath school in full operation, and much good being accomplished by it. The Rev. J. H. Reynolds preached a plain practical, sermon, which was appreciated by his congregation.

The crops along the road were somewhat "in the grass," but in were looking better than we expected to see them.

NEW LIVERY STABLE.—Mike C. Northington and Win. Dudley have opened a livery and feed stable on Strawberry street, nearly opposite the court house, where they keep the stock and new vehicles for hire to the "traveling public." This is an energetic firm, and will endeavor by fair dealing to merit a share of public patronage. See advertisement.

HON. JEFF DAVIS visited the city of New York on the 3d inst., and took quarters at the New York Hotel. He was interviewed by a Herald reporter, but did not furnish any political capital, as he has retired from the field of politics at present. He received and parted with the reporter in courteous manner.

OUR old friend, J. E. Garner, Esq., of Springfield, was in the city several days this week.

Another Shooting Scrape. Joshua Pugh and Robt. Scott, who live on the South side of Cumberland river, opposite Linton, Ky., some days since about cistern water. Scott wanted to use water from Pugh's cistern. Pugh objected to it. After a row at Linton, they went home. Scott entered Pugh's yard, armed with a club, and threatened to kill him, when Pugh took down his gun and shot him, eighteen bullets entering the left shoulder and side, creating a dangerous wound. No arrest was made, as it is believed that Pugh acted in self-defense.

The blast furnace just erected at Tracy City, Tenn., has proved to be a success. Its capacity is three tons of iron per day, cost of operation \$75, and the profits from \$35 to \$40. This is a practical illustration of what may be accomplished by the erection of small furnaces, the cost of which reach \$3,500, the engines not included.

The following gentlemen received prizes at the distribution of premiums to the subscribers of the Louisville Weekly Courier Journal July 1. W. M. Kerr, Clarksville, \$4.00 silver watch. J. H. Morgan, Rossview, Montgomery county, \$4 gold pen. John Goodman, Turnersville, Tenn., \$2.50 fruit knife. Clark Talley, Saddle Creek, Tenn., \$5.00 silver tea set. W. S. Lockert, Clarksville, \$2.50 silver cup. B. G. Bledsoe, Clarksville, \$4.00 cake basket.

DEATH OF A GOOD WOMAN.—We are pained to learn, as we do from the Hopkinsville New Era, of the 4th inst., of the death of Mrs. M. F. Grant, wife of Sam'l B. Grant, formerly of this city. She died at Mt. Vernon, Indiana, on the 1st and her remains were interred in the cemetery at Hopkinsville, Ky., her native place, on the 3d inst. She was a lady of rare virtues and accomplishments, and sustained well her part in all the relations of life. To her devoted husband and relatives we extend our warmest sympathies in this sad dispensation of Providence.

The Southern Baptist Convention, just held at Mobile, unanimously approved of the removal of the Southern Baptist Theological Seminary, now located in Greenville, S. C., to Louisville, Ky. The condition of its going to the latter place is that Kentucky shall raise for it \$300,000, of which Louisville shall raise one-third, and the other Southern States \$200,000 more, making a total of half a million.

MR. JOHN ROBERTS, formerly of this city, is in the city. He has ten hogheads of tobacco at the warehouse of Bowling & Thomas, to be sold at this market. The tobacco comes from his farm in Obion county. Mr. Roberts is known to our board here as one of the best tobacco raisers in the State.

BISHOP PAINE was in the city yesterday, the guest of Dr. West. He left for the District Conference at Bethel, yesterday morning. Revs. T. J. Duncan and G. P. Jackson were in the city, also on their way to Bethel. We hope the secretary will furnish us the proceedings for publication.

The Methodist pulpit in this city, will be filled to-morrow morning by some minister from District Conference. Bishop Paine will preach to-morrow night.

By reference to his card in this issue it will be seen that Dr. L. L. Lorton has recovered his health, and resumed the practice of his profession. The many friends of the Dr. will be glad to learn of his restoration to health and his resumption of practice.

In the Louisville drawing we learn that that Mr. George Alley, of this city, drew \$100. He was also in a club that drew \$100. Mr. J. J. Hamlet realized \$52.50 from a quarter ticket.

It is reported that the club made up in and around New Providence drew \$100,000—the Providence share being about \$2,500.

NOAH K. DAVIS, L. L. D., president of Bethel College, Russellville, Ky., has been elected to the chair of Moral Philosophy in the University of Virginia. Dr. Davis is an honorable gentleman and fine scholar, and the institution to which he is called ranks among the best in the land.

SUPERINTENDENT.—Our friend, S. D. Power, Esq., was elected last Monday, as Superintendent of Public Instruction for Cheatham county, at a salary of \$400. This is an excellent selection.

The following numbers drew the principal prizes in the Louisville Lottery drawing: No. 20,393 drew \$100,000; 5,630 drew \$50,000; 21,764 drew \$20,000; 97,433 drew \$10,000; 10,560 drew \$5,000.

THE St. Louis Democrat, of the 8th inst., reports the number of deaths there, for week ending Saturday, 21st, against 255 for previous week, and 10 Asiatic cholera was reported.

BOB BROADBENT, a crazy negro, set fire to his clothing last Thursday night and stuffed them in the chimney of the room next to Daniel's Livery stable, which burnt out the chimney, creating some alarm, but no damage.

PRAYER-MEETING will be held at the residence of R. H. Pickering, on Greenwood Avenue, next Tuesday night.

YOUNG WALWORTH, for murdering his father, has been sentenced to imprisonment for life.

PETER ORNEL, clerk and commissioner, advertises some land for sale on the 24th of August. He also has a non-resident notice in this issue.

MR. WALTER SHROPSHIRE, formerly of this city, has been elected Superintendent of Public Schools in Obion county.

OUR old friend, J. E. Garner, Esq., of Springfield, was in the city several days this week.

JOHN BRADLEY, an experienced brick maker, advertises to sell them at \$6 per thousand.

FINE Gold Pens for sale by OWEN & MOORE.

Musical Instruments of all kinds, such as violins, Guitars, Banjos, Harps, etc., also a splendid stock of Violin and Guitar Strings for sale by OWEN & MOORE.

Owen & Moore can furnish you with Papers, Magazines and Periodicals of all descriptions, at publisher's prices, by the year or single copy.

White Lead, Oil, Paints and Painter's Material for sale low at Byers'.

TO OUR SUBSCRIBERS. In accordance with the new postal law, on and after the first of July those of our subscribers who receive the CHRONICLE from the post-office in Montgomery county, will be required to pay postage, five cents per quarter, in advance at the office where they receive it. Subscribers in the city, who have had their paper delivered at the post-office, can save the postage by having their paper put in our delivery box in the CHRONICLE office. We will change the names to our office delivery, of all who request it. Postmasters will please notify us, at once, of any subscribers who refuse to take the paper out, and, also, of any who fail to take it out for a month. We are aware that the law requires this of postmasters, and only recur to it as a reminder.

STATE OF RAILROAD STOCK.—The Hopkinsville New Era, of the 4th inst., says: We are glad to learn that on last Saturday the Court of Claims for Christian county effected a compromise and settlement with Gen. Winslow of the suit of Christian county against the E. H. & N. Railroad Company and others. This settlement, as we learn, was accomplished by the county selling out its stock at sixty thousand dollars, payable in four equal semi-annual installments, the purchaser paying all costs and expenses.

THE Louisville Commercial of the 9th inst., says: Accounts of terrific storms of wind and rain come from Wisconsin, Michigan, Indiana, Ohio, New Jersey, and the Mayville district in this State. At Green Bay, Wisconsin, a pleasure yacht was capsized and twenty persons drowned. The damage to trees and telegraph poles has been with out parallel in Ohio and Indiana. Fields in many places have been converted into lakes. At St. Joseph, Mo., steamboats were seriously injured. Buildings have been unroofed and blown down in many places, and the damage to the growing crops is incalculable.

SPECIAL NOTICES. SYRAPS made fresh from the fruits, and not from essence, and Soda Water drawn from FROEHLICH'S—A delightful drink this hot weather.—At S. B. Stewart's. [July 5-2m.]

WANTED. 20,000 pounds of Wool and 5,000 pounds of Ginseng, for which I will pay the highest cash price. S. OPPENHEIMER. May 24, 73-2m.

CALL at S. B. Stewart's Drug Store, and get the best Glass of Soda Water you ever tasted.

Blank Books and Stationery for sale low at Byers'.

MINERAL Water, Kissingen, Seltzer or Vichy, constantly on draft at Stewart's Drug Store.

CERTAIN CURE FOR CORNS!—No cure, no pay. Only 50 cents per bottle. For sale by OWEN & MOORE.

"ARCTIC" Soda, cold as ice, at S. B. Stewart's.

Fresh Garden Seed just received at Byers'.

The best Robertson and Bourbon Whisky, Imported Brandy and Wines in the market to be found at Byers'.
